WORK EXPERIENCE

Senior UI/UX Designer — Jun 2020 – Present
Seowell Digital Sdn Bhd

- Led end-to-end UI/UX design for iGaming products, from research and flows to wireframes, prototypes, high-fidelity UI, and design systems.
- Translated designs into responsive HTML/CSS interfaces and used AI-assisted tools to improve design-to-code
- Design campaign banners and promotional assets for multiple brands.
- Maintain the shared design system so new features stay consistent across brands.

UI/UX Designer — Mar 2019 – May 2020
Envision Digital Technologies

- Produced wireframes and front-end UI for web and mobile products.
- Created GIF and motion assets for in-product and marketing use.
- Worked directly with developers to hand off specs and ship UI accurately.

Freelance Designer & Developer — Feb 2019 – Mar 2019

- Logo and graphic design, plus web development for small business clients.

User Interface Designer (Internship) — May 2018 – Jul 2018
Apptivity Lab

- Wireframed and designed app UI, and built responsive animations for mobile.
